TCHAIKOVSKY: Dances and Overtures

8.554845

This recording of Tchaikovsky orchestral rarities includes the early, reconstructed symphonic poem, *Fatum*, which incorporates the 'fate motifs' of the last three symphonies with something of the ebb and flow of a Liszt rhapsody. The overtures and dances are from operas less often heard in international repertoire than the established *Eugene Onegin* and *The Queen of Spades*. They range from the very Russian sounding *Overture to The Voyevoda*, Tchaikovsky's first opera, to the Cossack-inspired *Gopak* from *Mazeppa*.
