AMERICAN CLASSICS

Born in La Grange, Illinois, the young composer Carter Pann has received many accolades for his music over the years. His *Piano Concerto*, which distills the composer's influences through a suite of independent movements, won the K. Serocki International Competition. *Deux séjours* and *Two Portraits of Barcelona* are, by contrast, highly descriptive pieces written in reaction to visits to France and Spain. These earlier works represent a time when Pann's compositional methods were becoming intensely personal.
