LORENZINO del LIUTO: Renaissance Lute

8.570165

Lorenzino del Liuto was one of the most famous and accomplished virtuosi of the lute, as well as a composer who strongly influenced Italian and foreign lute literature. Anthologies of his work circulated throughout the cities of Europe for many years after his early death. The present selection of preludes, fantasias and dances is mostly derived from a 1603 collection published in Cologne by Jean-Baptiste Besard.
