Schubert's music has been arranged by many other composers, though few have succeeded in amplifying the astonishing drama and pathos of a masterpiece such as the *Death and the Maiden Quartet* as has Andy Stein, who writes: 'I have tried to create a late classical / early Romantic symphony out of this great chamber work, so that it perhaps would sound as if Schubert himself had conceived it in this form'. The reconstruction of the *Scherzo* of Schubert's '*Unfinished*' *Symphony* is based on fragments from the composer's notebooks. The last movement uses segments from Schubert's incidental music for *Rosamunde*, written shortly after he had set aside the *Symphony*, and which scholars believe may have been intended for its finale.
