

The collaboration of the poet John Dryden and Henry Purcell marked a conspicuous leap forward for English opera. Their greatest project, *King Arthur*, is a five-act 'dramatick opera', the text of which had its origins in a patriotic musical play Dryden had written in 1684 but which he radically overhauled. The result was a work that appealed to the audience's enthusiasm for fine costumes, lavish sets, ingenious stage machinery and a cast of singers, dancers and instrumentalists, containing vocal show-stoppers such as the imperishable *Frost Scene* and *Fairest isle*. This critically acclaimed staging uses a new performing edition by René Jacobs, and is sung in English with German dialogue.
