## Marimba Concertos

Marianna Bednarska  
Aalborg Symphony Orchestra  
Henrik Vagn Christensen

With his four concertos for marimba the Danish composer **Anders Koppel** (b. 1947) has played a crucial role in the development of a concert repertoire for this distinctive instrument. His concertos have been performed by virtuoso percussionists all over the world, but for this premiere recording the composer has personally selected a quite special soloist, the young Polish marimba player **Marianna Bednarska**, who is thus making her CD debut – accompanied by the **Aalborg Symphony Orchestra** conducted by **Henrik Vagn Christensen**.
