Hailed by many as the 'second Igor', Markevitch was *persona non grata* with Stravinsky after the première of *Rébus* in 1931. More than any other work, it was *Rébus* that established the worldwide reputation of the twenty-year-old composer, the work receiving virtually simultaneous performances in Paris, Amsterdam and Boston. *Hymnes* is an experimental work for orchestra in five movements in which a young man reflects on death. Markevitch is a vital composer in our understanding of the evolution of style and musical language in the twentieth century.
