

The works on this CD have been composed on the basis of Homer's Iliad. Commissioned by the National Arts Foundation, they were performed at the Ny Carlsberg Glyptotek in the autumn of 1999 as accompaniment to readings of Professor Otto Steen Due's new translation of the Iliad. With their six contributions the composers, all belonging to the elite in Danish electroacoustic music, have created six highly original and individual musical commentaries on the famous epic.

CD 1
