## Vagn Holmboe String Quartets Vol. 1

The award-winning Nightingale String Quartet begins a new exploration of one of the great unsung quartet cycles of the last century, that of Vagn Holmboe (1909-1996). The Danish composer's quartets are captivating, bold works composed with spirit, poise and craft that can truly stand comparison with the greatest cycles of the twentieth century. Their variegated textures, exploratory tonality and rhythmic verve are realised with skill and beauty on this striking first instalment.
