

**CONNECT**—electronic works for guitarJakob Bangsø, *guitar*

The five composers behind these world premiere recordings, written for the young classical guitarist **Jakob Bangsø**, all share a keen interest in the field of electroacoustic music. Through live electronics, sound-transforming algorithms and interactive systems, **CONNECT** explores captivating soundscapes in the borderlands between the acoustic and the digital, the raw and the processed, the heard and the reheard – guitar and electronics are equal partners.
