GIULIANI: Duets for Flute and Guitar

The Italian-born guitar virtuoso and composer Mauro Giuliani, settled in Vienna in 1806 and became active there as a teacher, performer, and composer. His *Grand Potpourri* combines melodies from the popular and art music of the day, including quotations from *Don Giovanni*. The *Sérénade* is in three straightforward movements, but ends with a rousing *Rondo allegro*, rather than the more usual *March*. The *Grand Duo Concertant* features infectious melodies and brilliant passages for both the flute and guitar. The *Grand Sérénade* opens with an attractive theme followed by a set of variations and a concluding *March and Trio*, as was customary in Vienna at this time. The writing for both instruments is masterly throughout, with the guitar occasionally breaking into Rossinian flourishes.
