Schreker's music is highly romantic with a very lush harmonic palette. The *Fantastic Overture*, composed in 1903, demonstrates to the full his mastery of the late-romantic orchestra. The Symphonic Overture *Ekkehard*, is based on a widely read novel by Viktor von Scheffel about the lives of two tenth century monks. *Der Schatzgraber* (1920) is set in a fairy-tale world of German medievalism. *Die Gezeichneten* (1918), a tragedy about a crippled nobleman and his rival in love, is probably Schreker's most controversial work. Concerned with the healing power of music, *Das Spielwerk* followed the success of Schreker's best known work, the opera *Der ferne Klang* (Naxos 8.660074-75).
