## A MAJOR 20th-CENTURY WORK REDISCOVERED!

The *Genesis Suite* depicts the earliest Bible stories, including the Creation, Adam and Eve, the Flood, and the Tower of Babel, narrated by distinguished actors accompanied by full orchestra and chorus. This unique collaboration of seven famous composers, most of them European exiles living in Hollywood during World War II, was performed only once, in 1945, before much of the music was lost in a fire. **FULLY RESTORED** from recently discovered original manuscripts, the *Genesis Suite* is now presented in its first modern recording.
