This recording presents the definitive version of Jesús Rueda's *Third Symphony*, a journey towards the light in which the composer revels in the dazzling textures filled with colour and dynamism that he loves. Traversing the four elements, Fire, Water, Earth and Air, the symphony culminates in an intense musical flood of light before subsiding into a mystical abyss. *Viaje imaginario* embarks on a very different imaginary journey, inspired by the composer's night-time walks and dedicated to the memory of his much-loved teacher Francisco Guerrero.
