

The flourishing genre of the comic opera had its roots in eighteenth-century Italian *opera buffa*, whose irrepressible brio was soon taken up outside the country's borders. In France it produced *opéra comique* and *opéra*, and in German-speaking countries *Spieloper* and Viennese *opéra*. Some of the world's most popular comic opera overtures, filled with gorgeous tunes, brilliant orchestration and race-to-the-finish endings, are presented here. They include staples of the concert repertoire such as Hérold's dramatic *Zampa*, the textual delicacy of Wolf-Ferrari's *Il segreto di Susanna* and the vivid colour of Lortzing's *Zar und Zimmermann*.
