Admired for his fusion of German and Italianate musical elements, Johann Simon Mayr is increasingly recognised as one of the most intriguing and influential composers of his time. His *Requiem in G minor* is shrouded in compositional obscurity but it is clear that the published version is surpassed both in scale and instrumentation by the elaborate edition performed here, which has been assembled from the autograph manuscripts. Small sections were composed by Donizetti and then corrected by his teacher, Mayr. Church style and more Romanticised elements are finely balanced in this important example of Mayr's compositional language.
