 Booklet notes in English

Johann Michael Haydn's music has inevitably been overshadowed by that of his elder brother Franz Joseph, but his music represents some of the best features of 18th century classicism. These four *Sinfonias* span just over a decade, from the graceful combination of elegance and liveliness in the *Sinfonia in D*, the muted violins in the *Adagietto affettuoso* of the *Sinfonia in E flat*, the lovely *sicilienne* of the *Sinfonia in B flat* to the substantial *Sinfonia in F*, which features a solo violin and cor anglais playing together or in alternation. Volume 1 of this series can be heard on Naxos 8.573497.
