The Estonian composer Toivo Tulev has forged a unique sound world. His music, with its almost obsessive focus on religious mysticism, can be sensual and emotional but also cerebral and technically demanding. Tulev often takes inspiration from his extensive travels, in particular from the city of Istanbul which, like his vocal music, bridges East and West. His meditation on the words of Sufi mystic Mansur Al-Hallaj, *I said, Who are You? – He said, You*, conjures up a transcendent atmosphere, while his *Magnificat* departs from the text's traditionally solemn setting with its stratospherically high string writing and wild percussion solos.
