Auber earned international adulation in the late 1820s for his revolutionary grand opera *La Muette de Portici* and by the time he composed *La Sirène*, the success of which inspired pot-pourris of its melodies, he occupied a central place in French musical life. The mysterious siren of the title is part of a plot that abounds in fantastic comedy, love, betrayal, farce and festivity in the lineage of Italian popular theatre. The German poet Heinrich Heine wrote that 'La Sirène' was received with resounding bravos ... The author and the composer know how to amuse us agreeably, and even to enchant us, or to dazzle us by the luminous facets of their spirit.'
