First performed in 1865, *Amleto* ('Hamlet') represented a radical new development in Italian opera, the *nuovo melodramma*. Composer Franco Faccio and his librettist Arrigo Boito sought a greater degree of musical unity in staged productions and a more equal relationship between text and music. In *Hamlet*, a play that many then considered un-operatic, they found the perfect medium through which to explore the work's philosophical and dramatic power – not least the great set-piece scenes: Amleto's soliloquy '*Essere o non essere!*' ('To be or not to be'), Ofelia's Mad Scene and the fight scenes – in a way that strikingly prefigures the *verismo* operas yet to come.
