王永吉 Conductor: WANG YONGJI 2, 6

## XIAO BAI CAI

Everlasting Chinese Folk Songs with Orchestra

The great diversity of China's traditional musical resources is shown in the geographically disparate regions from which the present folk-song material is drawn, the basis of so much popular music. The title piece is from a Hebei folk-song in which a girl laments the death of her mother, but other works reflect the joys of love, of work and of everyday life.
