Kenneth Leighton is one of the most distinguished British post-war composers. His music maintains a compelling balance between the romantic tradition and early serialism, and his lyrical and colourfully orchestrated works not only suggest a lively if often dark imagination, but demonstrate a scope explored by remarkably few of his countrymen. This is the second volume of our survey of his orchestral works.

Music as absorbing, humane and emotionally charged as this deserves a regular place in the repertoire...

Chandos' gorgeously ripe sound and superbly judged balance add further lustre to what is a terrific disc. I can hardly wait for the second instalment.
