Mary Shelley

# Frankenstein

*or The Modern Prometheus*Read by **Daniel Philpott, Roger May** and **Jonathan Oliver**

Mary Shelley's poignant exploration of the true depths of human ambition has had a profound effect on readers since its conception in 1816. When scientist Victor Frankenstein forms a creature from the body parts of corpses, thus shattering the perceived limits of scientific understanding, the consequences are devastating. As Frankenstein becomes disgusted with his experiment, he thwarts the creature's desire for a companion, and what ensues is singularly chilling.

## Cast

Victor Frankenstein **Daniel Philpott**  
Captain Robert Walton **Roger May**  
Daemon **Jonathan Oliver**
