David Angus GREAT INVENTORS AND THEIR INVENTIONS

Archimedes • Gutenberg • Franklin • Nobel
Bell • Marconi • The Wright Brothers • Edison

Read by **Benjamin Soames**

Nine remarkable men produced inventions that changed the world. The printing press, the telephone, powered flight and recording and many others have made the modern world what it is. But who were the men who had these ideas and made reality of them? As David Angus shows, they were very different – quiet, boisterous, confident, withdrawn – but all had a moment of vision allied to single-minded determination to battle through numerous prototypes to produce something that really worked.

It is a fascinating account for younger listeners.

Benjamin Soames trained at LAMDA. Since then, he has been active on both stage and screen, appearing in the popular TV series *Sharpe* and touring worldwide in the acclaimed Cheek by Jowl production of Shakespeare's *Measure for Measure* directed by Declan Donnell. He also reads *Tales from the Norse Legends*, *The Tale of Troy*, *The Adventures of Odysseus* and *More Tales from Greek Legends* for Naxos AudioBooks.
