THE STORY OF CLASSICAL MUSIC

Read by **Marin Alsop**

Marin Alsop

The lives and music of the great composers of classical music unfold in this entertaining account, introduced by the conductor and musical personality **Marin Alsop**. In 1200 years, classical music grew from the chanting of medieval monks through the symphonies of Beethoven and the grand operas of Wagner to the huge orchestral sound-world of the 21st century, with its electronics and its film music. In her easy-going style, Marin Alsop paints vivid portraits of over 90 composers, each one illustrated with some of his, or her, most famous music.

This all-encompassing introduction to classical music also includes a wealth of biographical and instrumental information on the CD-ROM element: put CD 4 into the computer and up will come pictures, articles, sheet music, quizzes and more, which will inform and fascinate the whole family.
