

Farley Mowat

NEVER CRY  
WOLFRead by **Adam Sims**

More than half a century ago, the naturalist Farley Mowat accepted an assignment to investigate why wolves were killing Arctic caribou. Mowat's account of the summer he lived in the frozen tundra alone – studying the wolf population and developing a deep affection for these wild creatures (who were no threat to caribou or man) – is today celebrated as a classic of nature writing, at once a tale of remarkable adventure and an indelible record of the myths and magic of wolves.

*Never Cry Wolf* was made into a major motion picture by Walt Disney Productions.

*'...a pioneering book in restoring the good name of that maligned creature... Mowat is so enjoyable to read.'* – The Wall Street Journal.

**Adam Sims** trained at LAMDA. His television and theatre credits include *Band of Brothers* and *Alice in Wonderland* (Royal Shakespeare Company). For Naxos AudioBooks, he has read Murakami's *after the quake* and *Hard-boiled Wonderland and the End of the World*.
