# Marcel Proust

## *The Essential*

# Remembrance of Things Past

Selected and read by **Neville Jason**  
with **Roy McMillan**

Marcel Proust's *Remembrance of Things Past* is one of the world's most celebrated books. And yet many people are daunted by its formidable size: it is more than 3,000 pages long. In this audio version Proust's masterpiece is presented in easily accessible form, the author's major themes and unique style are retained, and the key scenes are linked by a specially written narration. *The Essential Remembrance of Things Past* is an ideal introduction to one of the landmarks of modern European literature.

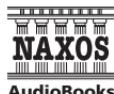

**Neville Jason** trained at RADA where he was awarded the Diction Prize by Sir John Gielgud. For Naxos AudioBooks he has read *War and Peace*, *The Life and Works of Marcel Proust*, *Remembrance of Things Past*, *The Decline and Fall of the Roman Empire* and *The Once and Future King*.
