

The Australian-British Sadie Harrison is no ordinary composer: she is also an archaeologist and a professional gardener. So it is hardly surprising that a fascination with historical artefacts and biological processes filters into her music. The instrumental miniatures on this recording are both slow and brutal, some of them mirroring ancient worlds and natural phenomena and others taking their starting point in the paintings of Brian Graham and Peter Sheppard Skærved, expressing visual and textural ideas in sound.

SADIE HARRISON Solos and Duos for Strings and Piano
