Listening to **Rued Langgaard's** works for solo piano is like reading an open book. All through his life, Langgaard had a close relationship with the piano and composed well over 50 works for the instrument, in which his development as a composer, and as a person, can be traced step by step. In this fourth volume of piano works by the deeply original Danish composer, **Berit Johansen Tange** captures the fierce inner life of Langgaard, his charm and incomparable twists in colour and mood that are all part of Langgaard's both delicate and visionary expression.
