

A large choir of men and women in formal black attire is performing. They are holding black music folders and looking upwards with expressions of concentration and devotion. The background is a warm, reddish-brown color.

SACRED CHORAL MUSIC

Of all music genres, sacred choral music enjoys the greatest historical reach and the richest range of styles. During the centuries preceding the Baroque period, unaccompanied gems would have rolled around the vaulted expanses of majestic cathedrals. Thereafter, accompanied music became the norm for masses, cantatas, oratorios and other works central to the religious experience, with standouts that include the Requiem Masses of Mozart, Fauré and Verdi. From Renaissance rites to the popular vernacular of modern religious works, the Naxos catalogue has the full overview.

A silhouette of a cathedral with multiple spires and domes is visible in the bottom right corner, set against a dark, warm-toned background.
