Vi fanns förut

Iris Bergcrantz - vocals, Calle Brickman - piano, Anders Fjeldsted - double bass, Andreas Fryland - drums, Hanna Hellegren - violin, Kristina Ebbersten - violin, Matilda Brunsström - viola, Christopher Öhman - viola, Filip Lundberg - cello, Anna Wallgren - cello.

The album consists of raw, honest original music in an eclectic mix of folk music, impressionism, and indie pop in a jazz packaging. The central theme is the transition from one phase of life to another. About having difficulty letting go of who you were to make room for who you are to become. About identity, codependency, relationships, and love. The lyrical universe is inspired by tarot cards, where each song symbolizes a card. The cover is a composition of all the symbols. "Vi fanns förut" follows the albums "Trasighet och fransar," which was nominated for best jazz album at the Manifest Gala 2023, and "Young Dreams," which was nominated for a DMA in 2020.
